No. 144.

Soncerning the problem of the acceptance of communism, ABRID presented me the following information received by him. (I ask you not to make it public.)

1. It is reported CHING KAI-SHEK, while he was in HSLU, rejected the demands on the part of the communist army such as the start of the anti-Japanese movement and the like on the ground that he did not possess soverign rights. Instead, he was reported to have promised that he would make his utmost afforts to schiove the satisfaction of the emands of the communist army after he returned the capital. Afterwards, so far as the said demands were concerned, negotiation between the central government and the communist army was almost concluded. As a result, only the problem of the freedom of the press and speech remained to be solved. It is said that CMIANG KAI-SHEK would not agree to this matter, because, once he consented to it, it would be utilized as a vehicle for Communist propagands.

- the same standard and badge as before in the same province and MANSU. There are several districts in the frontiers of FUCHIEN, NUBICHO' and SSUCHES, etc. where various Communist units numbering respectively 2000 --- 3000 are rampant. The Communist army is in radio connection with these units, but they are not influential.
- 3. The central government authorities have stoomed subjugating these Communist units.
- 4. The central government authorities are giving the same best rations and as those given to the forces connected with CHIANG KAI-SHEK army and they are also paid subsidies.
- 5. CHOUEN -L.I is reported to have told that the communist army was maintaining friendly relations with Outer Mongolia on the basis of reciprocity.

I despatched the above to each Consul general in China and to PEIPING.
